MIRA (Multi-Cluster Initial Rapid Assessment) data for Food cluster

Map showing issues raised in the MIRA (Multi-Cluster Initial Rapid Assessment) and pertaining to the Food cluster. The MIRA was undertaken in January 2012 in selected communities affected by TS Washi (Sendong) in Northwestern Mindanao.

The major source of food is the market and most households have limited food stock. Some the lack of money and cooking utensils. No significant price change.

1. Rogongon: Destroyed crops.
2. Digkilaan: Some households not have enough food and are excluded in the distribution. 2/3 of households have not received food. Food distribution does not appear to be equitable to family size.
3. Lingating: no issues reported
4. Digkilaan: Some households not have enough food and are excluded in the distribution. 2/3 of households have not received food. Food distribution does not appear to be equitable to family size.
5. Food shortage is expected in the near future.
6. Some households have not received emergency assistance for food. Food distribution does not appear to be equitable to family size.
7. Digkilaan: Some households not have enough food and are excluded in the distribution. 2/3 of households have not received food. Food distribution does not appear to be equitable to family size.
8. Pualas: no data
9. Tuod: Agricultural land was inundated by flood; evidence of felled bananas, coconuts and other debris.
10. Barra: no issues reported
11. Mapulog: no issues reported
12. Doronan: No access to basic market products (i.e., rice). Students need food.
13. Mahayhay: Purchasing power of the community is unclear but there is evidence that families may have increased problems due to lost or destruction of livelihood assets. The major source of food is the market and most households have limited food stock. Some the lack of money and cooking utensils. No significant price change.
14. Mandulog: Food distribution did not reach all affected families; food stock is available for about two weeks; they have not enough money to buy food. Household assets are lost and destroyed.
15. Rantian: Rice fields were totally damaged (4 totally, 87 partially, 11 severely damaged)
16. Batangan: 42 households did not receive emergency assistance for food
17. Mandulog: Food distribution did not reach all affected families; food stock is available for about two weeks; they have not enough money to buy food. Household assets are lost and destroyed.
18. Poblacion: IDPs in need of relief goods.
