Belize: Wildfires Indicative Areas Affected by Wildfires in Cayo District

St. Paul's The map shows the INDICATIVE extent of wildfires, derived from Copernicus EMSR726 and Sentinel-2 satellite images. Due to cloud cover on the used satellite images, the map DOES NOT show the full extent of wildfires. The map should only be used as an indicator of where wildfires are likely to have happened. The indicative extent of burnt areas is mosaiced from images of different dates from 13/05/2024 onwards. Map last updated on 11/06/2024. **BZ04** La Democracia BELIZE BZ01 Belmopan Duck Run 2 Santa Bullet Famil Hummingbird Middlesex Valley Community **GUATEMALA** NEMO Area of Interest Mountain Pine Ridge Forest Reserve **Event** Indicative extent of burnt area** 13 and 15 May 27 and 28 May 2 and 4 June **Boundary** District International **Transport** Primary road Secondary road Tertiary road Dam Settlement Capital Town Village Community Other **Physical** River Coastline Reservoir **TOLEDO BZ06** ** The dates refer to the most recent satellite image used for the burnt area delineation.
