These zones were developed to help coordinate and collaborate on relief efforts at the operational level. Level 3 Administrative boundaries in Lebanon ‘Cadasters’ were divided into Zones. Those zones will be used as a reference to facilitate the data collection for all different aspects of the response. A Zone can be defined as a cluster of built-up plots separated by the road network within the Administrative Level 3 – Cadasters of Lebanon.

Legend
Operational zones

Data Sources: OpenStreetMap, Lebanese Red Cross, OCHA, HDX
Supported by the UK Department for International Development, the German Federal Foreign Office and the Ministry of Foreign Affairs of the Netherlands
